**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Competition is essential for building a fair market system in any field, ensuring progress, innovations, and affordability of services. Cutting it off would eventually lead to technological stagnation and price inflation, cutting on affordability and quality of services provided. As a customer of local broadband provider of phone and internet services, my family and I demand that abovementioned services, as well as competitive choices, were continued to be available.
